SUBJECT INDEX

Aeromonas salmonicida
Humoral immune response of rainbow trout (*Salmo gairdneri*) immunised by various regimes and preparations of *A. salmonicida* antigens 153
Annual ryegrass toxicity
Immunological studies with liposome-bound corynetoxins 21
Antibodies
Humoral immune response of rainbow trout (*Salmo gairdneri*) immunised by various regimes and preparations of *Aeromonas salmonicida* antigens 153
Antibodies to immunoglobulin-G in dog sera, synovial fluids and aqueous humor: a comparative study of rheumatoid factor assays, suitable for routine applications 259
Antigens
Association between equine leucocyte antigens (ELA) and equine sarcoid tumors in the population of Swedish Halfbreds and some of their families 215
Differentiation antigens on bovine mononuclear phagocytes identified by monoclonal antibodies 325
Bacteria
Humoral immune response of rainbow trout (*Salmo gairdneri*) immunised by various regimes and preparations of *Aeromonas salmonicida* antigens 153
Antibody isotype response in adult cattle vaccinated with *Brucella abortus* S19 205
Preincubation of bovine blood neutrophils with bovine herpesvirus-1 does not impair neutrophil interaction with *Pasteurella haemolytica* A1 in vitro 273
Chemotactic and chemokinetic activity of *Streptococcus faecalis* culture supernatant for equine neutrophils 285
Chemotactic activity of chicken blood mononuclear leukocytes from $15I_5$-*B*-congenic lines to bacterially-derived chemoattractants 351
Blood
Enumeration of lymphocyte subsets in peripheral blood of rhesus monkeys prior to and following monocyte removal using a modified indirect avidin-biotin immunoperoxidase technique 119
Preincubation of bovine blood neutrophils with bovine herpesvirus-1 does not impair neutrophil interaction with *Pasteurella haemolytica* A1 in vitro 273
Chemotactic activity of chicken blood mononuclear leukocytes from $15I_5$-*B*-congenic lines to bacterially-derived chemoattractants 351
Bone marrow
Monoclonal antibodies as probes for defining cellular subsets in the bone marrow of the chicken 225
Bovine leukemia virus
Molecular studies of T-lymphocytes from infected cattle 307
Brucella abortus
Antibody isotype response in adult cattle vaccinated with *B. abortus* S19 205
Bursa of Fabricius
Monoclonal antibodies as probes for defining cellular subsets in the bursa of Fabricius of the chicken 225
Cat
Detection of conventional class I and class II I-E homologue major histocompatibility complex molecules on cells 79
Parameters of production and partial characterization of interleukin 2 173
Catarrhal fever
Lytic function of bovine lymphokine-activated killer cells from a normal and a malignant catarrhal fever virus-infected animal 105

Cattle
Isolation and characterization of lymphocytes from intestinal epithelium and lamina propria 39
Antiviral and antigenic properties of recombinant porcine interferon gamma 95
Lytic function of lymphokine-activated killer cells from a normal and a malignant catarrhal fever virus-infected animal 105
Further evidence that bovine IgM does not fix guinea pig complement 197
Antibody isotype response in adult cattle vaccinated with *Brucella abortus* S19 205
Simple isolation procedure for functionally pure components of the alternative complement pathway (ACP) C3 convertase and conglutinin (K) 251
Preincubation of blood neutrophils with bovine herpesvirus-1 does not impair neutrophil interaction with *Pasteurella haemolytica* A1 in vitro 273
Molecular studies of T-lymphocytes from cattle infected with bovine leukemia virus 307
Quantification of antigen-specific immunoglobulin G subisotypes (Letters to the Editors) 361
Chemotactic activity
Of *Streptococcus faecalis* culture supernatant for equine neutrophils 285
Of chicken blood mononuclear leukocytes from $15I_5$-*B*-congenic lines to bacterially-derived chemoattractants 351
Chicken
Presence of natural suppressor cells in the embryo spleen and the effect of virus infection of the embryo on suppressor cell activity 51
Monoclonal antibodies as probes for defining cellular subsets in the bone marrow, thymus, bursa of Fabricius, and spleen 225
Chemotactic activity of blood mononuclear leukocytes from $15I_5$-*B*-congenic lines to bacterially-derived chemoattractants 351
Chlamydia psittaci
Quantification of antigen-specific immunoglobulin G subisotypes in the bovine (Letters to the Editors) 361
Complement
Immune complex-mediated glomerulopathy in Marek's disease 165
Further evidence that bovine IgM does not fix guinea pig complement 197
Simple isolation procedure for functionally pure components of the bovine alternative complement pathway (ACP) C3 convertase and bovine conglutinin (K) 251
Concanavalin A
Parameters of production and partial characterization of feline interleukin 2 173
Conglutinin
Simple isolation procedure for functionally pure components of the bovine alternative complement pathway (ACP) C3 convertase and bovine conglutinin (K) 251
Convertase
Simple isolation procedure for functionally pure components of the bovine alternative complement pathway (ACP) C3 convertase and bovine conglutinin (K) 251
Dog
Immunologic aspects of German Shepherd dog Pyoderma (GSP) 67
Effects of human interferon-alpha upon in vitro canine immune responses 185
Antibodies to immunoglobulin-G in sera, synovial fluids and aqueous humor: a comparative study of rheumatoid factor assays, suitable for routine applications 259
Fluorescent probes
Use as markers for sheep lymphocyte subpopulations 141
German Shepherd dog Pyoderma
Immunologic aspects of German Shepherd dog Pyoderma (GSP) 67
Glomerulopathy
Immune complex-mediated glomerulopathy in Marek's disease 165
Goat
In vivo immunosuppression by synthetic pyrethroid (cypermethrin) pesticide 299

Guinea pig
Further evidence that bovine IgM does not fix guinea pig complement 197
Herpesvirus
Preincubation of bovine blood neutrophils with bovine herpesvirus-1 does not impair neutrophil interaction with *Pasteurella haemolytica* A1 in vitro 273
Horse
Association between equine leucocyte antigens (ELA) and equine sarcoid tumors in the population of Swedish Halfbreds and some of their families 215
Chemotactic and chemokinetic activity of *Streptococcus faecalis* culture supernatant for equine neutrophils 285
Immunoblotting
Immunoblotting analysis of antibody response in swine experimentally inoculated with *Mycoplasma hyopneumoniae* 239
Immunoglobulins
Further evidence that bovine IgM does not fix guinea pig complement 197
Antibodies to immunoglobulin-G in dog sera, synovial fluids and aqueous humor: a comparative study of rheumatoid factor assays, suitable for routine applications 259
Humoral and cellular parameters of the immune system of *Cebus apella* monkeys. Cross reactivity between monkey and human immunoglobulins 341
Quantification of antigen-specific immunoglobulin G subisotypes in the bovine (Letters to the Editors) 361
Immunosuppression
In vivo by synthetic pyrethroid (cypermethrin) pesticide in mice and goats 299
Interferon
Antiviral and antigenic properties of recombinant porcine interferon gamma 95
Effects of human interferon-alpha upon in vitro canine immune responses 185
Interleukin
Parameters of production and partial characterization of feline interleukin 2 173
Intestine
Isolation and characterization of lymphocytes from bovine intestinal epithelium and lamina propria 39
Kidney
Immune complex-mediated glomerulopathy in Marek's disease 165
Killer cells
Lytic function of bovine lymphokine-activated killer cells from a normal and a malignant catarrhal fever virus-infected animal 105
Leukemia
Molecular studies of T-lymphocytes from cattle infected with bovine leukemia virus 307
Leukocyte molecules
Sheep leukocyte molecules: a review of their distribution, structure and possible function 1
Leukocytes
Parameters of production and partial characterization of feline interleukin 2 173
Chemotactic activity of chicken blood mononuclear leukocytes from $15I_5$-*B*-congenic lines to bacterially-derived chemoattractants 351
Lymphocytes
Reactivity of eleven anti-human leucocyte monoclonal antibodies with lymphocytes from several domestic animals 31
Isolation and characterization of lymphocytes from bovine intestinal epithelium and lamina propria 39
Enumeration of lymphocyte subsets in peripheral blood of rhesus monkeys prior to and following monocyte removal using a modified indirect avidin-biotin immunoperoxidase technique 119
Two monoclonal antibodies (CC17, CC29) recognizing an antigen (Bo5) on bovine T lymphocytes, analogous to human CD5 127

Use of fluorescent probes as markers for sheep lymphocyte subpopulations 141
Molecular studies of T-lymphocytes from cattle infected with bovine leukemia virus 307
Humoral and cellular parameters of the immune system of *Cebus apella* monkey. Cross reactivity between monkey and human immunoglobulins 341
Major histocompatibility complex
Detection of conventional class I and class II I-E homologue MHC molecules on feline cells 79
Marek's disease
Immune complex-mediated glomerulopathy in Marek's disease 165
Monkey
Enumeration of lymphocyte subsets in peripheral blood of rhesus monkeys prior to and following monocyte removal using a modified indirect avidin-biotin immunoperoxidase technique 119
Humoral and cellular parameters of the immune system of *Cebus apella*: cross reactivity between monkey and human immunoglobulins 341
Monoclonal antibodies (mAbs)
Sheep leukocyte molecules: a review of their distribution, structure and possible function 1
Reactivity of eleven anti-human leucocyte mAbs with lymphocytes from several domestic animals 31
Two mAbs (CC17, CC29) recognizing an antigen (Bo5) on bovine T lymphocytes, analogous to human CD5 127
mAbs as probes for defining cellular subsets in the bone marrow, thymus, bursa of Fabricius, and spleen of the chicken 225
Differentiation antigens on bovine mononuclear phagocytes identified by mAbs 325
Monocytes
Enumeration of lymphocyte subsets in peripheral blood of rhesus monkeys prior to and following monocyte removal using a modified indirect avidin-biotin immunoperoxidase technique 119
Chemotactic activity of chicken blood mononuclear leukocytes from $15I_5$-*B*-congenic lines to bacterially-derived chemoattractants 351
Mouse
In vivo immunosuppression by synthetic pyrethroid (cypermethrin) pesticide 299
Mycoplasma hyopneumoniae
Immunoblotting analysis of antibody response in experimentally inoculated swine 239
Natural suppressor cells
Presence in the chicken embryo spleen and the effect of virus infection of the embryo on suppressor cell activity 51
Neutrophils
Preincubation of bovine blood neutrophils with bovine herpesvirus-1 does not impair neutrophil interaction with *Pasteurella haemolytica* A1 in vitro 273
Chemotactic and chemokinetic activity of *Strepococcus faecalis* culture supernatant for equine neutrophils 285
Pasteurella haemolytica
Preincubation of bovine blood neutrophils with bovine herpesvirus-1 does not impair neutrophil interaction with *P. haemolytica* A1 in vitro 273
Pesticides
In vivo immunosuppression by synthetic pyrethroid (cypermethrin) in mice and goats ... 299
Phagocytosis
Differentiation antigens on bovine mononuclear phagocytes identified by monoclonal antibodies 325
Pig
Antiviral and antigenic properties of recombinant porcine interferon gamma 95
Immunoblotting analysis of antibody response in swine experimentally inoculated with *Mycoplasma hyopneumoniae* 239

Pneumonia
Immunoblotting analysis of antibody response in swine experimentally inoculated with *Mycoplasma hyopneumoniae* 239
Rheumatoid factor
Antibodies to immunoglobulin-G in dog sera, synovial fluids and aqueous humor: a comparative study of rheumatoid factor assays, suitable for routine applications 259
Rosettes
Humoral and cellular parameters of the immune system of *Cebus apella* monkeys. Cross reactivity between monkey and human immunoglobulins 341
Sheep
Sheep leukocyte molecules: a review of their distribution, structure and possible function 1
Use of fluorescent probes as markers for lymphocyte subpopulations 141
Skin
Immunologic aspects of German Shepherd dog Pyoderma (GSP) 67
Spleen
Presence of natural suppressor cells in the chicken embryo spleen and the effect of virus infection of the embryo on suppressor cell activity 51
Monoclonal antibodies as probes for defining cellular subsets in the spleen of the chicken 225
Splenocytes
Parameters of production and partial characterization of feline interleukin 2 173
Streptococcus faecalis
Chemotactic and chemokinetic activity of *S. faecalis* culture supernatant for equine neutrophils 285
Surface markers
Reactivity of eleven anti-human leucocyte monoclonal antibodies with lymphocytes from several domestic animals 31
Two monoclonal antibodies (CC17, CC29) recognizing an antigen (Bo5) on bovine T lymphocytes, analogous to human CD5 127
Humoral and cellular parameters of the immune system of *Cebus apella* monkeys. Cross reactivity between monkey and human immunoglobulins 341
Thymus
Sheep leukocyte molecules: a review of their distribution, structure and possible function 1
Monoclonal antibodies as probes for defining cellular subsets in the thymus of the chicken 225
Toxins
Immunological studies with liposome-bound corynetoxins 21
Transmissible gastroenteritis virus
Antiviral and antigenic properties of recombinant porcine interferon gamma 95
Trout, rainbow
Humoral immune response of *Salmo gairdneri* immunised by various regimes and preparations of *Aeromonas salmonicida* antigens 153
Tumours
Association between equine leucocyte antigens (ELA) and equine sarcoid tumors in the population of Swedish Halfbreds and some of their families 215
Vaccination
Antibody isotype response in adult cattle vaccinated with *Brucella abortus* S19 205
Vesicular stomatitis virus
Antiviral and antigenic properties of recombinant porcine interferon gamma 95
Viruses
Presence of natural suppressor cells in the chicken embryo spleen and the effect of virus infection of the embryo on suppressor cell activity 51
Antiviral and antigenic properties of recombinant porcine interferon gamma 95

Lytic function of bovine lymphokine-activated killer cells from a normal and a malignant catarrhal fever virus-infected animal 105
Immune complex-mediated glomerulopathy in Marek's disease 165
Preincubation of bovine blood neutrophils with bovine herpesvirus-1 does not impair neutrophil interaction with *Pasteurella haemolytica* A1 in vitro 273
Molecular studies of T-lymphocytes from cattle infected with bovine leukemia virus 307
